PROFESSIONAL SUMMARY

Results-driven Full-Stack Software Engineer with hands-on experience building responsive web applications, REST APIs, and scalable UI systems in both enterprise and real-world product contexts. Proficient in React.js, Next.js 14, TypeScript, Node.js, JavaScript ES6+, and modern front-end tooling. Currently delivering production-grade applications at Capgemini for live client accounts. Co-contributor to an IEEE Xplore-published research paper on Deep Learning-based malware detection. Passionate about clean code, performance optimization, and great user experiences.

TECHNICAL SKILLS

Front-End: JavaScript (ES6+), TypeScript, React.js, Next.js 14, HTML5, CSS3, Tailwind CSS, Bootstrap, Framer Motion, XML, JSON, Responsive Design, SSR, WCAG Accessibility

Back-End & Databases: Node.js, Express.js, Java, C, REST APIs, MySQL, MongoDB

Enterprise & Cloud: SAP UI5, SAP Fiori, OData Services, SAP BTP, Google Cloud Platform, AWS

Tools & Platforms: Git, GitHub, VS Code, Postman, Chrome DevTools, Vercel, Google Colab

Methodologies: Agile, Scrum, Prompt Engineering, Generative AI, Performance Optimization, SEO

WORK EXPERIENCE

Software Engineer — UI Developer

February 2025 – Present

Capgemini Technology Services Pvt. Ltd.

Bengaluru, India

- Developed and delivered production-grade web applications using JavaScript (ES6+), HTML5, CSS3, and REST API integrations for live client accounts, streamlining data workflows for enterprise users.
- Built modular, reusable UI components featuring master-detail views, dynamic search dialogs, and fragment-based architecture — following industry UI/UX best practices for scalability and maintainability.
- Integrated REST APIs with back-end systems, enabling real-time bidirectional data exchange across multiple business modules.
- Collaborated with business analysts, solution architects, and QA teams in an Agile environment to translate functional requirements into clean, production-ready front-end solutions.
- Applied WCAG accessibility standards, responsive design principles, and performance optimization techniques to deliver polished, user-centric applications.
- Deployed and tested cloud-hosted applications, ensuring reliable uptime and maintainable code architecture in production environments.

Web Development Intern

September 2023 – October 2023

Exposys Datalabs

Virtual Internship

- Independently developed and deployed a fully functional website end-to-end, demonstrating proficiency across design, development, and delivery.
- Built a real-time **Video Chatting Website** supporting up to 100 simultaneous users using JavaScript and the ZEGOCLOUD API for live communication.
- Delivered responsive, accessible UI components across multiple projects; received positive stakeholder feedback on design quality and overall user experience.

RESEARCH & PUBLICATIONS

Android Malware Detection Using Deep Learning Techniques

IEEE Xplore, 2024

2nd IEEE International Conference on Networks, Multimedia and Information Technology (NMITCON-2024)

- Co-developed a CNN-based malware detection system achieving **96.7% accuracy** on a dataset of 40,000+ Android application samples sourced from Cuckoo Sandbox.
- Validated model robustness through 50+ training iterations;
- paper published on IEEE Xplore — ieeexplore.ieee.org/document/10892795

PROJECTS

Namma UK — Uttara Kannada Tourism Portal

Tech Stack: HTML5, CSS3, JavaScript, Interactive Maps, Responsive Design, Vercel

- Designed and launched a comprehensive tourism web portal covering all 12 taluks of Uttara Kannada district, featuring interactive map-based exploration of beaches, waterfalls, trekking routes, and heritage sites.
- Implemented taluk-wise destination categorization with rich media content, improving regional tourism discoverability — live at namma-uk.vercel.app

Mahalakshmi Boating Services Website

Tech Stack: HTML5, CSS3, JavaScript, Google Pay API, Multi-language, Responsive Design

- Developed a modern tourism business website featuring an online booking system, real-time availability display, Google Pay payment gateway integration, and multi-language support (English and Kannada).
- Received client commendation for professional design quality, smooth user experience, and timely delivery.

Portfolio Website

Tech Stack: Next.js 14, TypeScript, Tailwind CSS, Framer Motion, SSR, SEO

- Engineered a fully SEO-optimized personal portfolio using Next.js 14 with server-side rendering, dark/light theming, smooth Framer Motion animations, and WCAG accessibility compliance.
- Achieved strong Core Web Vitals scores through performance optimization and SSR — live at vishwadev.vercel.app

Task Management Application

Tech Stack: Node.js, Express.js, JavaScript, HTML5, CSS3, Tailwind CSS

- Architected a full-stack task manager with a RESTful Node.js/Express back-end, persistent local storage, and a responsive Tailwind CSS front-end, supporting 1,000+ task records at scale.

Mining Details Application

Tech Stack: SAP UI5, SAP Fiori, OData, SAP BTP, JavaScript, XML

- Built an enterprise web application with full CRUD operations via REST/OData API integration, real-time back-end synchronization, and a responsive, accessible user interface.

EDUCATION

Bachelor of Engineering in Computer Science — CGPA: 7.8 | First Class with Distinction Dec 2021 – Jun 2024
Nitte Meenakshi Institute of Technology *Bengaluru, India*

Diploma in Computer Science Engineering — 92% | First Class with Distinction Jun 2018 – Dec 2021
MES RN Shetty Polytechnic College *Sirsi, India*

CERTIFICATIONS

- Google Cloud Fundamentals: Core Infrastructure — Google Cloud Aug 2025
- AWS Academy Graduate: Cloud Foundations — AWS Academy Apr 2024
- Agile Software Development — University of Minnesota, Coursera Jun 2025
- Getting Started with Prompt Engineering & Generative AI — Pluralsight Jul 2025
- Developing UIs with SAPUI5 — SAP Jan 2026
- Introduction to RISE with SAP Methodology — SAP Aug 2025
