SUMMARY

Motivated Software Engineer with extensive experience in SAP UI5/Fiori, specializing in creating intuitive and responsive user interfaces. Proficient in front-end technologies, OData integration, and agile methodologies. Dedicated to delivering high-quality solutions that optimize business processes and elevate user experience. Passionate about embracing new challenges and contributing to innovative projects. Adept at collaborating with cross-functional teams to drive project success. Continuously learning and staying updated with the latest industry trends.

WORK EXPERIENCE

SAP UI5/Fiori Developer | Capgemini

Bangalore, India

Feb 2025 – Present

- Completed intensive training and now working as an SAP UI5/Fiori Developer, building modern, responsive enterprise applications.
- Developing and customizing SAP Fiori applications using SAPUI5, HTML5, JavaScript, and OData services.
- Collaborating with functional and technical teams to deliver tailored SAP solutions that enhance user experience and business efficiency.
- Ensuring adherence to SAP design principles and best practices for scalable and maintainable applications

Applied Skills: ABAP Basics, SAP BTP, SAP UI5/FIORI

PROJECTS

Mining Details App

Tech Stack: HTML, CSS, JavaScript, XML, OData, BTP, SAP Ui5/Fiori, JSON

- Developed a Mining Details application using SAP UI5/Fiori and OData services to manage mining-related data.
- Implemented full CRUD (Create, Read, Update, Delete) operations with seamless integration to backend systems via OData.
- Designed a responsive and user-friendly interface following Fiori design guidelines for optimal user experience.

Android Malware Detection Using Deep Learning

Tech Stack: Python, CNN, TensorFlow, Pandas

- Achieved 96.7% accuracy in malware detection using a CNN on 40,000+ samples.
- Trained and validated model with 50+ iterations ensuring reliability.

Task Management Application 📌

Tech Stack: HTML, CSS, JavaScript, Node.js, Express, Tailwind

- Developed a full-stack task manager with backend and persistent local storage.
- Designed a responsive UI handling 1,000+ tasks efficiently.

Sharavati Boating Honnavar (Backwater Tours) 📌

Tech Stack: HTML, CSS, JavaScript (static site + gallery, WhatsApp integration)

- Built a website promoting adventure boating and pre-wedding shoot packages.
- Structured pricing and integrated WhatsApp booking buttons and visual gallery.
